WORK EXPERIENCE

Polytechnic University of Valencia **June 2026 – July 2026**
Software Engineering Intern *Valencia, Spain*

- Developed backend services and relational database schemas (MySQL, Django) to power analytical monitoring dashboards for academic supervision, used by +50 professors.
- Collaborated on the development of web applications using JavaScript, CSS, and WordPress, delivering user-centric solutions according to stakeholder specifications.

Local client **March 2026 – April 2026**
Freelancer Web Developer *Remote*

- Architected, designed, and deployed a modern web application for a client using Astro and Netlify.
- Optimized frontend for improved SEO and Google Lighthouse scores.

MaibornWolff GmbH **April 2022 – June 2022**
Junior Software Developer Intern *Valencia, Spain – Munich, Germany*

- Prototyped and launched a corporate branding portal, adhering to design guidelines and UI/UX best practices using JavaScript and Wordpress.
- Authored comprehensive technical documentation and code guidelines to ensure long-term maintainability.

EDUCATION

Polytechnic University of Valencia **Sept 2023 – Sept 2026**
Master's Degree in Cloud and High-Performance Computing *Valencia, Spain*

- Master's Thesis: Migrated a legacy cloud platform into a modular Vue 3 / TypeScript SPA backed by AWS serverless infrastructure (Lambda, API Gateway, Cognito); built custom analytics dashboards adopted across 11 university courses.

Polytechnic University of Valencia **Sept 2019 – Sept 2023**
Computer Engineering Degree, Majors Software *Valencia, Spain*

- Bachelor's Thesis: Developed a full-stack social platform for medical procedure reviews and consultations using React, Django, and REST APIs.
