WORK EXPERIENCE

Universitat Politècnica de València **June 2026 – Present**
Software Engineering Intern *Remote*

- Developed backend services and relational database schemas (MySQL, Django) to power analytical monitoring dashboards for academic supervision, used by +50 professors.
- Collaborated on the development of web applications using JavaScript, CSS, and WordPress, delivering user-centric solutions according to stakeholder specifications.

Local client **March 2026 – April 2026**
Freelancer Web Developer *Remote*

- Architected, designed, and deployed a modern web application for a client using Astro and Netlify.
- Optimized frontend for improved SEO scores.

Maibornwolff GMBH **April 2022 – June. 2022**
Junior Software Developer Intern *Valencia, Spain – Munich, Germany*

- Analyzed technical specifications and user requirements to design modular, maintainable web components aligned with corporate guidelines.
- Prototyped and launched a corporate branding portal, adhering to strict design guidelines and UI/UX best practices.
- Authored comprehensive technical documentation and code guidelines to ensure long-term maintainability and seamless onboarding for developers.

EDUCATION

Universitat Politècnica de València **Sept 2023 – Sept 2026**
Master's Degree in Cloud and High-Performance Computing *Spain, Valencia*

- Master's Thesis: Executed an end-to-end frontend migration of a cloud platform to a reactive Vue 3 / TypeScript SPA. Integrated AWS Cloud services (AWS Cognito, API Gateway, Lambda) and designed custom analytics dashboards.

Universitat Politècnica de València **Sept 2019 – Sept 2023**
Computer Engineering Degree, Majors Software *Spain, Valencia*

- Bachelor's Thesis: Developed a full-stack social platform for medical procedure reviews and consultations using React, Django, and REST APIs.
